DETAILED ACTION

1. This Office Action is the answer to the Appeal Brief filed on August 2, 2007, which paper has been placed of record in the file.
2. Claims 1, 3-6, 9-15, 17-20, 23-32, 35-41, 44-56, 60-62, and 73-81 are pending in this application.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in the interview with the attorney of record Pristing Johannessen on October 1, 2007.

Claim 55 is amended as: line 9, replacing the phrase "steps (1) and (2)" by the phrase "the preceding steps."

Allowable Subject Matter/Reasons for Allowance

4. Claims 1, 15, 29, 38, 47, 51, and 55 are allowed over the prior arts cited records.

The closest prior arts are:

1) May (US 6,421,653) discloses an internet-protocol based anonymous trading system which enables traders to identify bids and offers which they are eligible to trade based upon a color coded methodology which gives the trader credit preference

information about the potential counterparty while still maintaining the anonymity of the potential counterparty. Each bid or offer is prescreened against all possible counterparties' credit information in the system and each counterparty sees a unique color coded trading interface based upon their particular credit preference combinations and the others in the system. The system then shows all prices in the system, and the color-coding tells the trader which prices he is able to trade, and also shows him the full depth of the market, including those the trader is unable to trade.

2) Tozzoli (US 5,717,989) discloses in column 7, lines 10-25, the system transmits the buyer's offer including overt terms to the selected sellers, who respond with offers to sell, which are filtered by the trade system against the buyer's overt and hidden terms; the system references a pre-stored list of sellers having certain characteristics, such as those willing to supply certain goods or services, the buyer selects the type of sellers to which its tender should be transmitted.

Therefore, it is clear from the description of May's and Tozzoli's inventions that the prior arts do not considered the possibility of: producing a targeted dissemination list of securities market participants based on said confidential trading interest information of securities market participants and said information received from said first securities market participant's computer, wherein said targeted dissemination list excludes one or more market participants identified as unlikely to take the contra side to a specified trade and likely to use said information received from said first securities market participant's computer in a manner that would affect the price or availability of said security, as included in claims 1, 15, 29, and 38; producing a measure of said

Art Unit: 3692

first securities market participant's trading activity with respect to a standard, wherein said measure is based at least in part on a net change in said first securities market participant's position as determined by subtracting number of said shares of said specified security sold during said specified time period from number of said shares purchased during said specified time period, as included in claims 47 and 51; enabling a first securities market participant to target dissemination of trading interests to only those other securities market participants likely to have a significant contra-interest, wherein said enabling comprises, for each order placed by said first securities market participant, creating a targeted dissemination list and ensuring that securities market participants not listed on said targeted dissemination list from receive no information regarding said order, as included in claim 55.

5. Claims (3-6, 9-14, 56, 60-62, 73-76), (17-20, 23-28), (30-32, 35-37), (39-41, 44-46), (48-50, 77-81) and (52-54), are allowed because they are dependent claims of the allowable independent claims 1, 15, 29, 38, 47, and 51 above, in that order.

Conclusion

6. Claims 1, 3-6, 9-15, 17-20, 23-32, 35-41, 44-56, 60-62, and 73-81 are allowed.
